

Smart decoration solutions for professionals

USERGUIDE **TWPRO1500ETHP**

REV 2.200831

READ AND FOLLOW ALL SAFETY INSTRUCTIONS

1. Read and follow all safety instructions.
2. Do not use seasonal products outdoors unless marked suitable for indoor and outdoor use. When products are used in outdoor applications, connect the product to a Ground Fault Circuit Interrupting (GFCI) outlet. If one is not provided, contact a qualified electrician for proper installation.
3. This seasonal use product is not intended for permanent installation or use.
4. Do not mount or place near gas or electric heaters, fireplaces, candles, or other similar sources of heat.
5. Do not secure the wiring of the product with staples or nails, or place on sharp hooks or nails.
6. Do not let lamps rest on the supply cord or on any wire.
7. This is an electric product - not a toy! To avoid risk of fire, burns, personal injury and electric shock it should not be played with or placed where small children can reach it.
8. Do not use this product for other than its intended use.
9. Do not hang ornaments or other objects from cord, wire, or light string.
10. Do not cover the product with cloth, paper, or any material not part of the product when in use.
11. Do not close doors or windows on the product or extension cords as this may damage the wire insulation.
12. Read and follow all instructions that are on the product or provided with the product.
13. Save these instructions.

USE AND CARE INSTRUCTIONS

- a. When the product is placed on a live tree, the tree should be well maintained and fresh. Do not place on live trees in which the needles are brown or break off easily. Keep the live tree holder filled with water.
- b. Once the product is placed, the installation should be well secured and stable.
- c. Before using or reusing, inspect product carefully. Discard any products that have cut damaged, or frayed wire insulation or cords, cracks in the lampholders or enclosures, loose connections, or exposed copper wire.
- d. When storing the product, carefully remove the product from wherever it is placed, including trees, branches, or bushes, to avoid any undue strain or stress on the product conductors, connections, and wires.
- e. When not in use, store neatly in a cool, dry location protected from sunlight.

ATTENTION - TO REDUCE THE RISK OF FIRE AND ELECTRIC SHOCK

- a. Do not install on surfaces having sharp edges, or coverings of metal or materials which look like metal.
- b. Do not mount or support wires in a manner that can cut or damage wire insulation.

Class A Disclaimer: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- i. Reorient or relocate the receiving antenna.
- ii. Increase the separation between the equipment and receiver.
- iii. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- iv. Consult the dealer or an experienced radio/television technician for help.

⚠ WARNING!

Do not connect the light string to the power supply while it is in the packaging. The connecting cable cannot be repaired or replaced. THE LAMPS ARE NOT REPLECEABLE. The lighting chain must not be used without all gaskets being in place. Lighting chains not intended for interconnection. Do not connect this light string electrically to devices from another manufacturer. CAUTION! Strangulation hazard. Keep out of reach of young children.

The crossed-out wheeled bin symbol indicates that the item should be disposed of separately from household waste. The item should be handed in for recycling in accordance with local environmental regulations for waste disposal.

TECHNICAL SPECIFICATIONS

No. of ports	6 *
IP rating	IP65
Connectivity	Ethernet
Power rating	150 W MAX
Adapter input voltage	120 - 240 VAC MAX 50/60Hz
Temperature range	-15°C / 40°C 5°F / 104°F
Storage temperature range	-20°C / 60°C -4°F / 140°F
Certification	US EU JP AU certified
Warranty	24 months

* Up to max. 1500 RGB / AWW Twinkly Pro LEDs.
Up to max. 1250 RGB+W Twinkly Pro LEDs.

Introduction

Thank you for choosing Twinkly Pro for your lighting needs.

This manual will provide detailed instructions, guide you through the entire setup process, and assist you with the recommended installation procedure for your device(s).

By reading this step-by-step guide you will:

- avoid making common installation mistakes;
- learn the technical and practical knowledge needed to operate and manage your device(s) properly;
- minimize the need for Technical Support;
- help create the best experience possible for you and your customers.

At the end of this manual, complete the 'pre-flight' checklist and be ready to decorate like a boss!

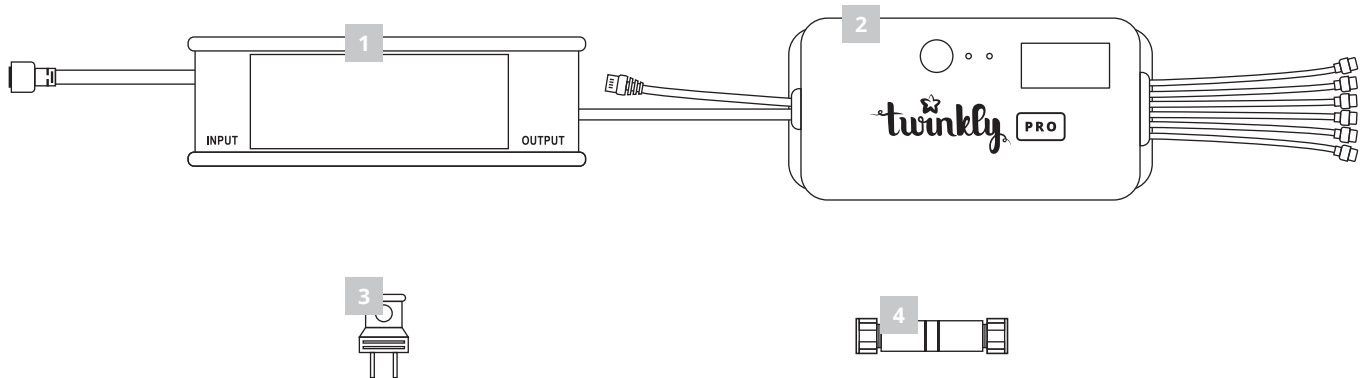

Sincerely,

THE TWINKLY PRO TEAM

Package Contents

What is inside the box

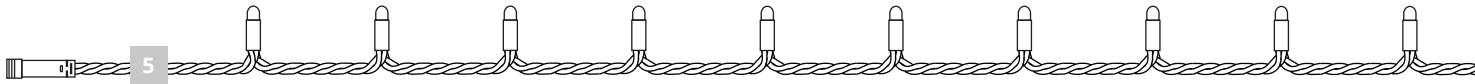

- 1 AC/DC Power Adapter
- 2 TWPRO1500ETHP Ethernet Controller
- 3 Plug
- 4 Ethernet Cable Extender

Installation Requirements

What is required for the installation *

- 5** Twinkly Pro Light Strings (*up to 6 per TWPRO1500ETHP controller*)
- 6** Internet Router
- 7** CAT5 Ethernet Cable (*only needed in case the TWPRO1500ETHP controller's ethernet cable can't reach the router*)

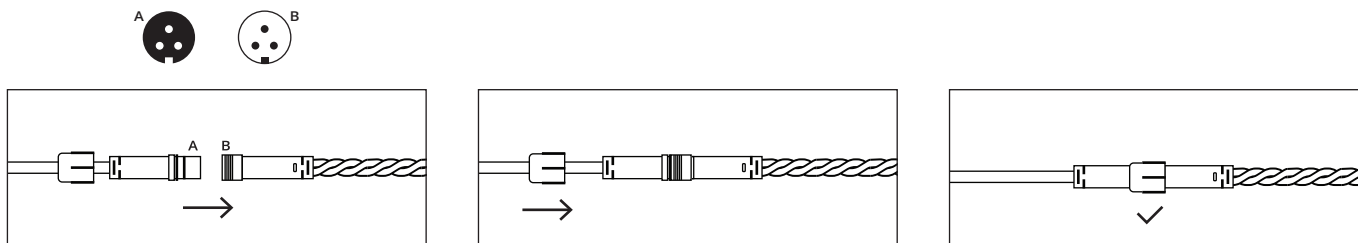

* purchased separately

STEP 1

Connect Light Strings

We recommend installing lights strings before connecting them to the controller(s).

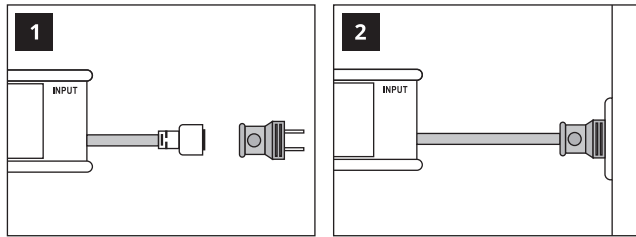

NOTE

Up to max. 1500 RGB / AWW Twinkly Pro LEDs.

Up to max. 1250 RGB+W Twinkly Pro LEDs.

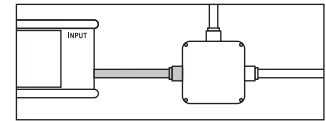

STEP 2

Powering up the Controller

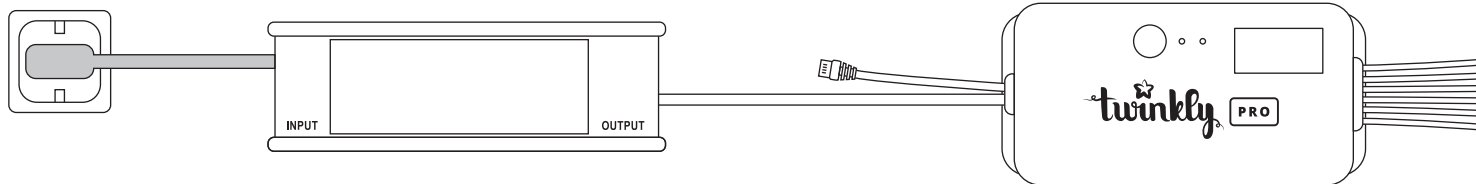

- 1 **Connect the AC cable to the plug**
- 2 **Connect the power adapter to a power socket**

You can also connect the power supply without plug in an airtight electrical box

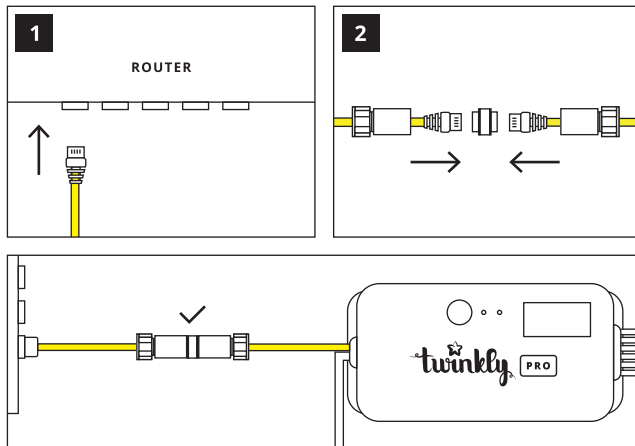

Your controller is now powered up

When the controller is powered up, a LED light on the top turns green.

STEP 3

Connect to your Network

1 **Connect CAT 5 cable to an open port on router** (not WAN)

- Use Network Switch for installations requiring more controllers, see page 11 for recommended networking setup
- Connect to WAN port for installations to be controlled remotely and to have full access to all the Twinkly app features during configuration and devices control

2 **In case the cable is too short, use the Ethernet Cable Extender provided**

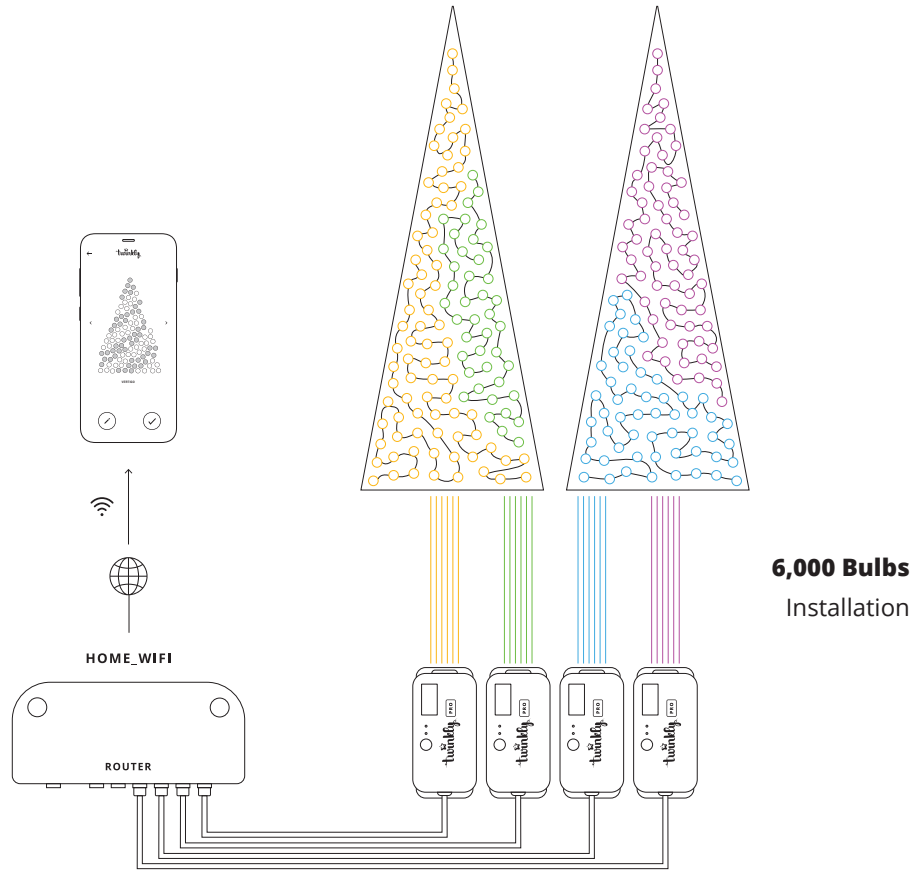

You are connected!

When the controller is powered up, a LED light on the top turns green.

Multi-controller Setup

Twinkly App functions for multi-controller installations:

- Grouping
- Join
- Sync
- Scenes
- Mapping

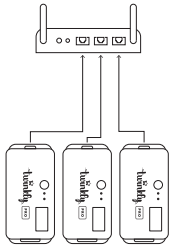

CORRECT

Networking layout for multiple controllers

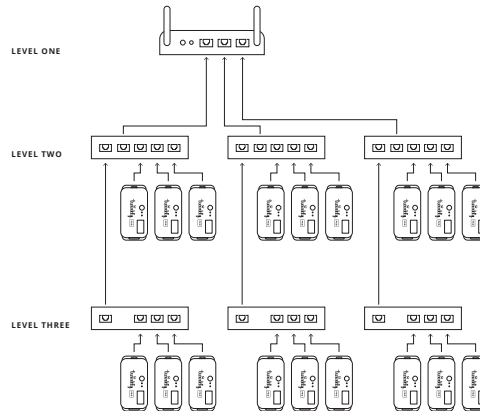

NOTE

* The maximum number is delimited by the number of available ethernet ports in your router.

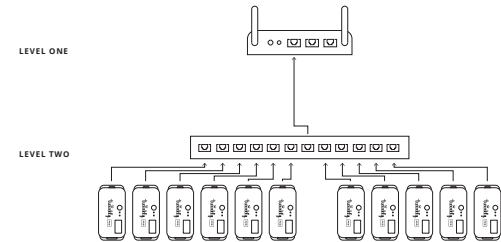

1 - 3* CONTROLLERS

3* OR MORE CONTROLLERS OPTION A

OPTION B

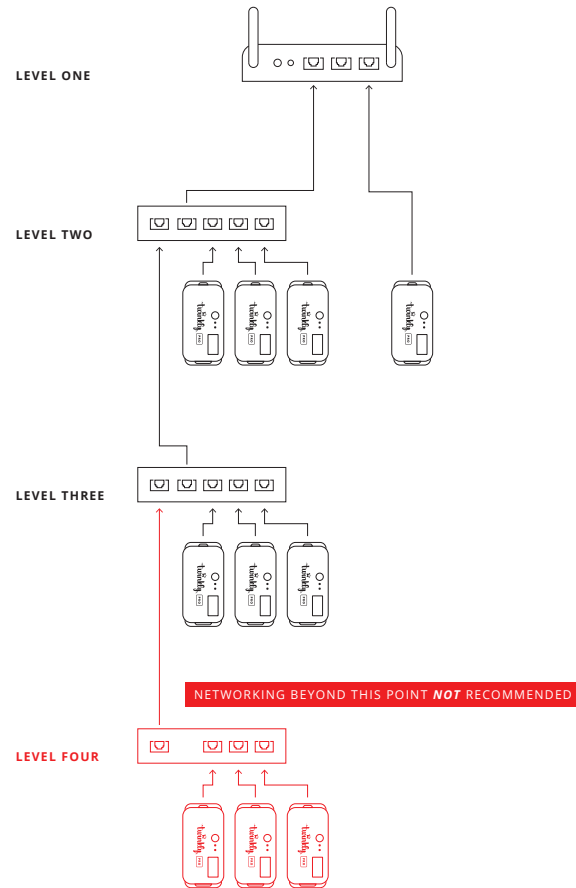

INCORRECT

Networking layout for multiple controllers

NOTE

Networking controllers beyond three levels deep may result in loss of data transfer.
